

## Press release

### PENTA Sports – United we are strong

On the 5th of January, five well-known clans – from the past and now – will unite to PENTA-Sports. This magic five include Concordia Gaming and diamondZ which were able to collect several - national and international - prizes in the past. In addition to those two there will be one further club – well known to be one of the first esports clubs – as well as a club which is famous nationally (Germany) and even internationally at the moment. Cooperating with our sponsors and partners, which partial make their “first step” in to the esports scene, we are going to create synergy between professional gaming and community, aiming for a new spirit of a club in the esports scene. Next to a professional racing team and a Battlefield 4 team we will present a Counter-Strike:GO EPS team, a FIFA team including ex-WCG players and one of the best Call of Duty:Ghosts team in Europe. In League of Legends and DotA2 we will come out with a surprise.
